

TIPS FOR RENTING A STORAGE UNIT

Things to consider if you're thinking about
renting a storage unit:

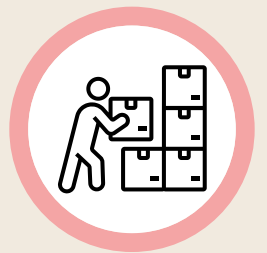

Research the Facility

Is it temperature controlled?

What are the access hours?

Are there security cameras monitoring the facility 24/7?

Is the facility clean & well maintained?

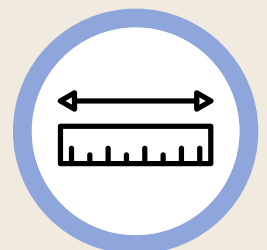

Have an End Date

Give yourself a deadline for how long you'll rent the space.
Out of sight, out of mind can make it easy to leave your stuff.
Don't postpone collecting your belongings.

Measure

Try to get the smallest unit that will fit your belongings.
It will cost less & won't allow for excess.

Calculate the Cost

Make sure that you understand the pricing.
Is there a minimum lease time?
Will rates remain the same?
Does your homeowners or rental insurance cover your items?
